

# Call for Papers

15th International Conference on Web Engineering

ICWE 2015, Rotterdam, the Netherlands | 23 – 26 June 2015

## IMPORTANT DATES

Abstract submission: February 05, 2015  
Full paper submission: February 12, 2015  
Paper notification: March 20, 2015  
Camera-ready deadline: April 10, 2015  
(All deadlines are at 23h59 Hawaii Time)

## KEYNOTE SPEAKERS

**Enrique Alfonseca**

Google Research Zürich, Switzerland

**Peter Mika**

Yahoo Labs Barcelona, Spain

**Mike Thelwall**

University of Wolverhampton, UK

## RESEARCH TRACKS

Web application modeling and engineering  
Mobile Web applications  
Social Web applications  
Semantic Web applications  
Quality and accessibility aspects of  
Web applications  
Web composition and mashups  
Web user interfaces  
Security and privacy in Web applications

## ORGANIZATION

**General Chair:**

Flavius Frasincar, Erasmus University Rotterdam, the Netherlands

**Vice-General Chair:**

Geert-Jan Houben, Delft University of Technology, the Netherlands

[generalchair.icwe2015@webengineering.org](mailto:generalchair.icwe2015@webengineering.org)

**Program Co-Chairs:**

Philipp Cimiano, Bielefeld University, Germany

Daniel Schwabe, Pontifical Catholic University of Rio de Janeiro, Brazil

[pcchair.icwe2015@webengineering.org](mailto:pcchair.icwe2015@webengineering.org)

## ICWE 2015 AT A GLANCE

ICWE aims to bring together researchers and practitioners from various disciplines in academia and industry to tackle the emerging challenges in the engineering of Web applications and in the problems of its associated technologies, as well as the impact of those technologies on society and culture.

The 15th edition of ICWE will be organized in thematic tracks, each focusing on a different dimension of Web applications: Web application modeling and engineering, mobile Web applications, social Web applications, Semantic Web applications, quality and accessibility aspects of Web applications, Web composition and mashups, Web user interfaces, and security and privacy in Web applications.

In addition to the research tracks, ICWE 2015 also seeks contributions of demos and posters, student papers to the PhD Symposium, tutorials, and workshops, which are subject of individual calls for papers.

The conference will be held at the World Trade Center in Rotterdam, the Netherlands. Rotterdam is the second largest city in the Netherlands, one of the largest seaports worldwide, and host to several leading universities.

## SUBMISSIONS TO THE RESEARCH TRACKS

This call addresses research contributions to research tracks in one of the following categories:

**Full research papers:** mature, original research contribution. (18 pages)

Reported results should be supported by some type of validation, and also include a justification about the choice/suitability of the validation method. In addition, evidence of use in practice and/or demonstration of scalability is regarded as a plus.

**Position papers:** short papers presenting a discussion. (10 pages)

These papers are intended to present a discussion (analysis, criticism, proposal, etc.) that promise potential for research that will impact Web engineering in the coming years.

Papers must be formatted according to the Springer LNCS style and submitted in PDF. Accepted contributions will be included into the ICWE 2015 Springer LNCS proceedings. The best papers will be selected to be proposed, in extended form, as part of a special issue of the Journal of Web Engineering.
